## CAREER OBJECTIVE

A motivated and detail-oriented software testing fresher, eager to apply analytical skills, knowledge of testing methodologies, and problem-solving abilities to ensure high-quality, bug-free software.

## PROFESSIONAL SUMMARY

I was responsible for analyzing and validating business requirements, generating test scenarios and cases, and developing regression test scripts based on documentation and stakeholder input. I developed and executed automation test scripts using Selenium and Selector Hub, and performed various testing types including smoke, functional, re-testing, and regression. I have experience designing and implementing TestNG frameworks with WebDriver, as well as parameterizing for hybrid frameworks. I tracked and reported bugs using Jira participated in peer reviews, and contributed to creating Requirement Traceability Matrices (RTM). My automation testing experience includes using Selenium WebDriver with the Page Object Model, custom XPath identifiers, data-driven & Hybrid Framework testing. I am proficient in SQL and have expertise in various testing methodologies and test documentation.

## ACADEMIC CREDENTIALS

MCA	Gita Autonomous College	CGPA:- 9.48
10/2022 – 05/2024		
B.Sc	GC College	CGPA:- 7.86
06/2018 – 04/2021		
+2	NC College	CGPA :- 6.9
07/2016 – 03/2018		
10th	Ajana High School	CGPA:- 9.15
03/2015 – 03/2016		

## CERTIFICATIONS

**Software Testing**      **Certificate Id No:-QET07152**  
Trained on Manual Testing, Automation Testing (Selenium with core Java), SQL and Agile Model.

## KEY ACHIEVEMENTS

- Automation Testing Achievement:-**  
Successfully developed automation scripts using Selenium WebDriver and designed a robust TestNG framework.
- High Academic Performance:-**  
Achieved a CGPA of 9.48 in my Master's program.
- Enhanced Testing Efficiency:-**  
Improved testing efficiency by 30% using automated scripts.

## PROJECTS

### PROJECT 1 :- STOCK ACCOUNTING

**Role :** Trainee Test Engineer Testing

**Duration :** 2 Months

**Environment :** Automation Testing with Selenium TestNG, Apache POI & Cucumber

- **ERP - Stock Accounting** is a large retail chain in the UK selling products like food, furniture, electronics, and more. The ERP system helps manage key business areas such as inventory, sales, marketing, finance, and human resources. It has major functionalities like Stockitems, purchases, Customers, Suppliers, Sales.The system also supports features like barcode creation and supplier barcodes.

**Responsibilities:-**

- Analyzing & validating the completeness of business requirements
- Generating the Test scenarios and Test cases.
- Utilized **Selenium WebDriver** along with **TestNG** and **Cucumber**.
- Performed **Smoke**, Functional, System Integration, Retesting & Regression .
- Developed Automation **Test Scripts**. Used **Selector Hub** tool to identify the object properties in the Application.

### PROJECT 2:- PRIMUS BANK

**Role :** Trainee Test Engineer Testing

**Duration :** 2 Months

**Environment :** Manual Testing

PRIMUS Bank is a web based Banking Software, offers Personal Banking, Corporate Banking and International Banking Services. This Project comprises 3 major modules such as Admin, Banker and Customer Module.
